

Appendix A

Stormwater Best Management Practices Classification of Work

The following table classifies work as eligible for reimbursement, not eligible for reimbursement. The list is not inclusive and is subject to change.

Note: Communities with combined sewers will be expected to expend at least 25% of the District funding in the combined sewer area.

Work Type	SBMP Work eligible for District reimbursement	SBMP Work not eligible for District reimbursement
Greenways	X	
Wetlands	X	
Infiltration trenches and basins	X	
Bioretention Facilities	X	
Rain Gardens	X	
Catch basin inserts	X	
Vegetated filter strips	X	
Stormwater Trees	X	
Sand and organic filters	X	
Green Roofs	X	
Manufactured products for catch basins	X	
Blue Roofs	X	
Bio-Swales and Bioretention Facility	X	
Grassed swales	X	

Appendix A

Stormwater Best Management Practices Classification of Work

The following table classifies work as eligible for reimbursement, not eligible for reimbursement. The list is not inclusive and is subject to change.

Note: Communities with combined sewers will be expected to expend at least 25% of the District funding in the combined sewer area.

Work Type	SBMP Work eligible for District reimbursement	SBMP Work not eligible for District reimbursement
Native Landscaping	X	
Porous/Permeable Pavement	X	
Rainwater Catchment	X	
Green Alleys, Streets, and Parking Lots	X	
Inlet Restrictors	X	
Downspout Disconnection		X
Illicit connection detection and removal programs		X
Ponds		X
Planning, engineering, design and construction Inspection of the SBMP.	X	
SBMP Information and Education efforts		X
Construction site erosion and sediment control efforts (unless related to constructing a post construction BMP)		X
Direct in-kind staff time directed toward managing and reporting on SBMP work (no indirect: i.e. accounting, administrative overhead, etc)		X
Stormwater/Development Code development		X
Removing impervious area	X	
Consultant time directly involved in SBMP efforts		X
SBMP mapping and GIS efforts		X

Appendix A

Stormwater Best Management Practices Classification of Work

The following table classifies work as eligible for reimbursement, not eligible for reimbursement. The list is not inclusive and is subject to change.

Note: Communities with combined sewers will be expected to expend at least 25% of the District funding in the combined sewer area.

Work Type	SBMP Work eligible for District reimbursement	SBMP Work not eligible for District reimbursement
Staff and consultant time to prepare SBMP reports		X
Work required under court order		X
Work to correct illegal circumstances		X
Investigation or inspection work not related to SBMP		X
Maintenance of existing or proposed stormwater facilities and BMPs.		X
